The readers of this paper will be pleased to learn there is at least one dredged disease which has been unable to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cause known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and the various surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Thousand Dollars for any case of Catarrh that fails to cure, after a list of testimonials.

There are three or four boys who attend the Methodist church regularly apparently with no other purpose than to hold a long and heated conversation during the service. These boys are old enough to know that such conduct as this not only disturbs the persons sitting next to them, but shows an utter lack of regard and reverence for the minister and the house of worship.

At the barbecue given at Keyserburg last week in the interest of the "Dark Tobacco Growers Association" there was a picnic present and thirty-eight carcasses of sheep, hogs and cattle were barbecued. Hon. A. O. Stanley, Jas. Wesley Gaines, Felix Ewing and Joe Fort were the speakers. Mr. Stanley said in his speech that

"The Governor of Kentucky would have to grow a lot of whiskers before he could ever do as much good for the people of Kentucky as Felix Ewing had done. The 'Dark Tobacco Growers Association' will give another barbecue at Cross Plains near Adams station Saturday and a rousing big meal at Guthrie on July 1st. They expect to have 2000 people at Guthrie and want five thousand people present."

Fenwick-Brinkley.

A THOUGHT FOR THE WEEK.

An elephant is afraid of a mouse. If he only knew his strength! The non-advertiser is like the elephant—he has great power, if he would only use it—by advertising.

Doubt or hesitation kills the salesman's powers of persuasiveness. A life's habit of respecting the authority of print offers the logical argument in favor of an advertisement for this purpose alone if for no other.

Many merchants hesitate about placing themselves in the lime light of publicity for fear of the critics. They are like the boy who refused to wear a new suit of clothes all together the first day for fear his "pals" will call him "dude."

Every business man incurs certain risks; he is in danger only so far as he may not find means to avert it. He is in peril, however, if he is in imminent danger of being overwhelmed by a more progressive and up to date competitor—who advertises.

CANNOT MAKE REPAIRS AT MANILA

Government Decides That Crippled
Russian Cruisers Must Leave
Manila or Intern.

INJURIES RECEIVED IN BATTLE; NOT BY SEA OR STORM

Japan Satisfied By Course Taken By
United States—Little Hope In Europe That Russia Will End
Peace—Russia Will Not Send
Fourth Squadron Eastward.

Washington, June 6.—Admiral English will not be allowed to repair his ships at Manila. This government has decided that the injuries to the ships were not caused by the sea or storm, the authorities will be obliged to refuse permission for the vessels to be repaired there. Secretary Taft cabled the following instructions to Gov. Wright at Manila regarding the ships:

"Time can not be given for the repair of the injuries received in battle. Therefore the vessels can not be repaired unless interned until the end of hostilities."

Admiral Train has been instructed to proceed to the Philippines. Secretary Taft that if the Russian vessel agreed to leave Manila in their present condition they were welcome to do so, but as it did not appear that they suffered from any damage caused by the sea or storm, this government was obliged to take such steps as were deemed necessary.

In case Admiral English does not adopt this course, his only alternative, after the period allowed by international law has expired, will be to intern his ships. Orders have been issued for Admiral Train to take charge of the details of internment if the Russian admiral decides to follow this policy.

The navy department received a cablegram from Rear-Admiral Train confirming its intent to make a search of the Russian ships at Manila to repair such repairs as will put them in a seaworthy condition.

WILL SATISFY JAPAN.

The Course of the United States Is So Far Satisfactory.

Washington, June 6.—The Japanese minister has formally informed the State Department that action the United States government intends to take respecting the Russian was vessels now in Manila bay. Acting Secretary Roosevelt says that the vessels would be interned if they did not leave harbor at once. An exchange has taken place, in order to formally establish the responsibility of the United States for the detention of the vessels in Manila harbor until the end of the hostilities.

"We are satisfied with this government's instructions that the Russian ships at Manila must intern or put to sea," said Mr. Takahira, the Japanese minister.

A CRISIS IN RUSSIA.

Three Powerful Advisors of the Czar Reported to Have Resigned.

St. Petersburg, June 6.—Count Lamberg, foreign minister; M. Bulygina, minister of state; and Adm. Alexeiev, of far east, are reported to have surrendered office as protest against placing almost unlimited power in Treppoff's hands.

Civil war is threatened. The czar has prohibited the assembling of troops.

WILL CONTINUE THE WAR.

London, June 6.—Accounts of Pres. Little Hoce in Europe are to the effect that the weak and weary despondency, dyspepsia, flatulence, stomach troubles and digestive disorders.

London, June 6.—Accounts of Pres. Little Hoce in Europe are to the effect that the weak and weary despondency, dyspepsia, flatulence, stomach troubles and digestive disorders.

Describing the Staking Ship.

St. Petersburg, June 6.—Minister of the interior Boulshin and Admiral Alexeiev, head of the committee of the far east, has tendered their resignations, which the emperor has not accepted. They are to be replaced by Gen. Trepoff, who also resigns, as a protest against the reactionary policy of the czar as shown by the extension of the powers of Gen. Trepoff.

Three Cruisers May Be Raised.

Tokio, June 6.—The Russian cruisers Admiral Nachimoff, Vladimir Monomach and Dmitri Donskoi having sunk in comparatively shallow water, it is possible to raise them.

CONTRACTS CANCELLED.

Russia Will Not Send a Fourth Squadron to the Eastward.

Hamburg, June 6.—News reached here from Libau that German seamen who were employed there for service with the fourth Russian squadron, which it was intended to send to the far east, have withdrawn under the terms of their contract and have been released by recent events. This is considered proof that Russia has definitely abandoned further efforts to wrest the sea power from Japan.

BIRMINGHAM RAILROAD MAN WEDS YOUNG LADY OF HOWELL.

Groom Began Career on the Henderson Division—Bride the Daughter of Foreman of Smithing Department at Howell Shops.

(Special to The Bee.)

Howell, Ind., June 7.—At the St. Agnes church early this morning occurred the marriage of Miss Katherine McCue, of this city, to Mr. Andrew F. Smith, of Birmingham, Ala., the ceremony being performed by Father Fitzpatrick. Some hundred or more people, friends and relatives of the bride and groom, were present, among them being several prominent railroad officials from various parts of the country.

Mr. Smith, familiarly known as "Andy," began his career as a railroad man on this division being a machinist helper in the shops at Howell. In September, 1899, he was promoted to fireman, in which capacity he distinguished himself as a success from the very beginning. His excellent service was recognized by a promotion to traveling fireman and in 1904 to engineer. As the company needed men in the South he was transferred to the South & North Division. Mr. Smith is what may be termed an energetic young man, for whom the future holds much in store.

The bride is the beautiful and accomplished daughter of Mr. Patrick McCue, of Howell, the well known foreman of the Smithing Department of the L. & N. shops.

The reception at the bride's home lasted from 9 to 12 o'clock. At 12:30 Mr. and Mrs. Smith left on No. 52 for Evansville, Wyoming, where they will spend a ten days' honeymoon, after which they will go to Birmingham, Ala., their future home.

Foley-McKee.

Miss Lena Foley, of Madisonville, and Mr. Ollie McKee, of Toledo, Ohio, were married at the residence of her sister, Mrs. E. S. Papin, of 4123 Finney Ave., St. Louis, last Wednesday. Miss Foley was engaged to be married to Mr. James Dimmitt, the son of a banker of Shelbina, Mo., but when her first love, Mr. McKee, appeared, she soon saw the scene she quickly changed her mind and told him the old love was still living, and they were married.

Miss Foley telegraphed Mr. Dimmitt the state of affairs and expressed her regrets. Miss Foley is one of Madisonville's most charming daughters and has a host of friends there.

OUR SCHOOL PRIZE CONTEST.

On July 18 last the Hopkins County Teachers' Institute met at Madisonville for the regular annual session. Prof. Chas. Evans, of Marion, acted as instructor and led the institute. It was a most interesting and profitable meeting, one in which many of the county's best teachers took active part. During that institute THE BEE made the initial announcement of its prize offer of a choice book to be given to the pupil in each school in Hopkins county who makes the best general average, based on teachers' reports, during the next school term. This prize offer was emphasized vigorously by Prof. Evans, the institute leader, and the teachers were urged to take it up and present it to their schools and use it for the good of their pupils.

At that time, too, a special "Educational Department" was inaugurated in THE BEE and a half-page of space, for one year was dedicated to this new aid to education. The teacher's were asked to send to this department "short, pithy contributions upon topics of interest to the teachers and appreciable to the pupils of public schools." Later, special report cards were sent to the teachers, upon which to send necessary information as to monthly grades of the "honor pupils," which was published as received.

A number of the teachers of the county sent regular reports and gave us a final summary after the close of their school term. Some others began encouragingly but dropped out presently and gave us no opportunity to award the prizes that we were desirous should go to their schools. Yet others did not reply at all to THE BEE's communications.

It was a considerable undertaking to try to get these necessary reports from all the common schools of the county. We have succeeded only in part and achieved this partial success with considerable labor and expenditure of time and valuable newspaper space, through correspondence and the work necessary to keep up the Educational Department during the year.

But we feel fully repaid for the labor and expense involved. There is pleasure and inspiration in the thought that we are enabled to award deserved prizes to even a fair proportion of the brightest and most earnest students in the public schools of Hopkins county. This pleasure is heightened by the knowledge that these pupils knew of and appreciated the interest taken by THE BEE in their work and their advancement, and that these pupils, many of them, have worked hard during the school term to win the honor of standing at the head of their class, and to win the prize offered by THE

BEE.

Another reward that is ours exclusively and is sufficient to repay us for every effort and expense in this connection, is unfolded in the numerous kindly letters of endorsement received during the school term from teachers who were making use of THE BEE's offer in their school work.

One teacher wrote at the close of his school: "I wish to thank you very much for the interest you have taken for me, as I am confident that the work has been more efficient than it would have been otherwise." Another teacher wrote: "Great interest was taken by the school in your efforts to raise the educational spirit of the county and certainly should receive the hearty approval of every teacher who feels an interest in the future welfare of the boys and girls of the country. The little girl who made best grade was 15 years old and worked incessantly throughout the school and only won by a small margin." Another teacher wrote: "I appreciate very much the interest you have taken in the schools in the county and am sure they have been benefited." Another: "I think your offer has done a great deal of good in my school." Another wrote: "I beg leave to thank you as one of the teachers of Hopkins county for the interest you are manifesting in us as teachers and also for the greater and higher interest you are manifesting in the children of your county, who are soon to be the managers and directors of its affairs."

These are but a few of the many like expressions received during the year. Had these letters stopped at the simple declaration, "I think your offer has done a great deal of good in my school," our reward would have been complete.

The result of the contest is stated in an article on the first page of this issue. The prize books will be mailed to the winners in this contest as quickly as the books can be procured.

The distribution comes a little late for some of the county schools,

but the Earlinton and some other schools have just closed

and we desired to make the entire awards and distributions at once.

In some instances the prize winners have had to be determined by lot, since in some schools there has been more than one pupil holding the highest grade.

If this paper shall come to the hands of any one who can furnish the name and address of any prize winner not herein reported, and who worked for THE BEE prize during the school term we will gladly publish the name of such pupil and award the prize.

There has been considerable talk about building a railroad from Madisonville through Muhlenberg, McLean, Ohio and Breckinridge counties to Elizabethtown, but so far there seems to be no definite plans fixed at the Madisonville end.

If Mr. H. H. Holman, who is at the head of the enterprise, is really in earnest about building a railroad we invite him to Earlinton. He can, we believe, secure the necessary rights of way into Earlinton and terminal facilities here at very little cost to his people and can get action quickly. Earlinton would be glad to have an outlet to Louisville by the short line proposed. Locate the terminal here, Mr. Holman, and build the road now.

We have just found our copy of the Madisonville Hustler of last Friday's issue in which nearly two columns of space is devoted to "As to The Bee." If there is anything therein that requires or deserves answering we will take time and space another week when there is nothing of especial importance to demand our attention.

COXUMPTON is being certainly cured in New York City by dispensary treatment of people who cannot quit work. There is a record of forty-five cures in the past seven years, and of many other cases whose condition has been greatly improved and their lives lengthened.

can be prevented by or cured by right living. A man should know his physical self as well as his moral self and should control both.

English As Spoken In Kentucky.

(Henderson Gleaner.)

The alleged funny dialect yarns concerning Kentucky in Northern papers are absolutely disgusting. As a rule better English is spoken than elsewhere in the United States.

LOCOMOTIVE BLASTS

Summer Rates Are Now in Effect.

On June 1st, the regular summer rates to pleasure and health resorts of the Southeast went into effect over all railroads and a decided increase in passenger traffic is expected to result.

The rates this year include a number of places not included in the rate schedule last year and those wishing to visit any place recognized as resorts in the Southeastern States will be able to make the trip this year for one fare plus \$2. In cases of places within 200 miles of the starting point the rate will be one fare plus twenty-five cents.

The amount in excess of one fare is regulated according to the distance from the starting point, which complicates the rate to some extent.

The summer travel to most of the Southeastern points is expected to be much greater this year than usual, as travel generally will be somewhat greater than it was last year. Passengers think that this summer will be a banner period in the passenger business and that the resort travel will almost equal the movement to St. Louis last year.

Atlantic Coast Line Will Make an Aggressive Movement.

The management of the Atlantic Coast Line railroad, controlling directly and through joint ownership 11,700 miles of railroad in the South, has decided on an aggressive movement for increasing its gross business and building up its territory.

Jointly with the Louisville and Nashville, the Nashville, Chattanooga and St. Louis, and smaller subsidiary lines, it will establish bureaus of industry and immigration. It will through these systematically exploit the resources and possibilities of the Southern States which the lines of the system traverse. In taking up for the South the systematic compilation of statistics relating to its field the Coast Line is doing what has brought great results when tried by other systems in other sections. Probably the best organized existing systems are those of the Rock Island, the Hill roads and the Southern Pacific.

New Equipment for the L. & N.

The Louisville and Nashville road received thirty new box cars for distribution through the Nashville yards Saturday. The cars were built at the company's Decatur shops and are thoroughly modern and have a capacity of 65,000 pounds.

The Decatur shops are now turning out about sixty cars a week, and they are being distributed over the system. The Nashville division will receive about ten cars per week through the summer. The company is building most of its freight equipment at the Decatur shops, but the passenger cars and engines are being built in Louisville. The Louisville shops are giving their full time to passenger equipment and engines now, and will continue to do so until the new shops in South Louisville are completed, which will be this fall. The new shops will be about the largest railroad shops in the South and will contain machinery sufficient to enable the company to make al-

most anything it uses in equipment and construction. The Decatur shops will continue to make most of the freight cars on account of the nearby market for lumber and wheels. The rolling mills at Birmingham furnish most of the structural iron and steel used by the Louisville & Nashville, and this gives the Decatur shops an advantage over the Louisville shops.

THE SECRET OF SUCCESS

"No Sir! You cannot sales off any substances on me. I've been taking them since I was a boy, and they have no effect."

Forty million bottles of August Flower sold in the United States alone since its introduction!

And the demand for it is still growing. Is not it a fine showing of success? Don't it tell us that August Flower has had unending success in the cure of indigestion and dyspepsia—the worst enemies of man and woman?

Does it not afford clear evidence that August Flower is a sure specific for all stomach and intestinal disorders?—for all those who are ill with them?

August Flower has a matchless record of over 35 years in curing the ailing millions of those distressing complaints. **Two sizes, 250 and 75c. All druggists.**

Three Cigars a Day.

A cigarette isn't much, to be sure but a man who smokes three cigars a day, or takes three glasses of beer, in the course of a year consumes enough to add many luxuries and comforts to his home. The Household Review estimates it this way:

"One barrel of flour, 50 lbs. sugar, 30 lbs. coffee, 10 lbs. tea, 10 lbs. macaroni, 10 quarts beans, 4 lbs. calves' heads, 1 bushel sweet potatoes, 10 lbs. raisins, 10 lbs. rice, 20 lbs. crack-

The Hope of Misfortune.

Fate is a soulful time. Sorrow often brings out the best there is in us. Happiness does not develop character. It gives its surface brightness and decks it with prismatic bubbles. It takes the deep reaching arm of misfortune to trouble the depths and bring out the pearls that lie there. The most magnetic faces are lined by thought and noble care. Strong, unselfish love, even misplaced and unappreciated, ennobles the lover. It is the frivolous, vanity born emotions that fritter away character and makes faces insignificant. To fate, though, aim after earnest and honest effort is the answer. Gain it brings the strength and discipline will appear in other directions. Misfortune has often in the history of the world been the means of making a poet, orator, philanthropist, scientist or statesman out of a person whose career but for the misfortune or physical disability would have been commonplace and influence limited.—Medical Talk.

President, It is Said, Realizes If He

Can Hope to Accomplish But Little.

Washington, June 5.—It is highly
probable that the president will abandon all thought of an extra session. He is not prepared to say at this time that such will be his final determination, but he sees no reason for acting in this way. In the last few weeks he has talked with the speaker of the house and with leading senators, and from them they secured a promise that he would not call the extra session until after the state elections in November. After the state elections in November were all over, that would put the extra session off until at least November 13. Not content with having secured this concession from the chief executive, they are now urging him to await the regular session, saying that but little, if anything, can be accomplished in the short time between November 13 and the first of December. In December when the regular session will begin.

probable that the president will abandon all thought of an extra session. He is not prepared to say at this time that such will be his final determination, but he sees no reason for acting in this way. In the last few weeks he has talked with the speaker of the house and with leading senators, and from them they secured a promise that he would not call the extra session until after the state elections in November. After the state elections in November were all over, that would put the extra session off until at least November 13. Not content with having secured this concession from the chief executive, they are now urging him to await the regular session, saying that but little, if anything, can be accomplished in the short time between November 13 and the first of December. In December when the regular session will begin.

GEN. LINEVITCH
IS CONFIDENT

The Russian Commander in Manchuria is For War.

THINKS HE CAN DEFEAT JAPS

His Army, He Says, Is Now in a Condition That Would Warrant Him in Acting on the Offensive.

CRAZED RUSSIA, MANCHURIA, June 7.—The Japanese appear to be withdrawing to the southwest along their whole front. It is thought that this is perhaps a maneuver to entice Gen. Linevitch from his present position.

Headquarters of the Russian Army, Gunshu Pass, Manchuria, June 7.—Undismayed by Rojestvensky's defeat and full of confidence as to the outcome of the approaching battle, Lieut.-Gen. Linevitch, in war to the bitter end, told his officers that the Manchurian army is now strong enough to assume the aggressive.

To a question put to him by a press correspondent, to whom he granted an interview, as to whether he was for war or peace, the commander-in-chief replied firmly and without the slightest hesitation:

"Most certainly I am for war. I am a soldier. The emperor's will is naturally my law, but my voice now, before, is for the continuance of the peace."

"With the destruction of our fleet vanishes, of course, the hopes of those who at the beginning of the war wished to make peace at Tokio, but our defeat at sea has no interference with our plan—absolutely not one whit. I consider myself strong enough now merely to hold my ground, but even to advance."

"I am no prophet, and have no desire to be one, but I firmly believe that I can and will defeat the Japanese in Manchuria."

"I have asked the war office to send me recruits of the youngest class instead of older ones, not because the latter make poor soldiers, but because with plenty of young and vigorous recruits, it would be useless to me as inadvisable to call the older men from their more their more settled life."

Mrs. Annie Fletcher was the guest of Mrs. Georgia Eeves Sunday evening.

Mr. Major Gaither called on Miss Sallie Isabel Sunday.

Mr. Richard Blaine and family,

who moved from here to Clarksville several months ago, is living here again.

Rev. J. Douglas preached an excellent sermon Sunday night to a crowded house.

Mrs. Charlie Stiggs was in Madisonville Monday.

Sued By His Doctor.

"A doctor here has sued me for \$12.50, which he claimed was necessary for a case of cholera morbus," says R. White, of Cooncilla, Calif.

"At the trial, the plaintiff claimed he was not a Chamberlain's Colic Cholera and Diarrhea Remedy made up and I told him so.

"It was, and he did not get an injunction oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never failed him.

HAPPENINGS
IN KENTUCKY.

I. Bailey of Madisonville Makes a Big Timber Deal.

Mr. I. Bailey, the well known and popular coal man of Madisonville, has consummated a large timber deal. He sold to the Kentucky Wagon Works, of Louisville, the entire oak timber on 550 acres of land, for which he received \$5,500.

The timber is on the land owned by Mr. Bailey one mile from Hamby Station on the Illinois Central railroad. It is especially fitted for wagon material, being medium second growth trees.

This company has used Hopkins county timber for years in the manufacture of their wagons, and say it has given better satisfaction than almost any timber they have used. Mr. Bailey still retains the land and mineral rights.

Deal Made Runs a Paper.

HARRIMAN, Tenn., June 2.—East Tennessee enjoys the distinction of having the only newspaper in the South owned and edited by a deaf mute. The paper is the Lenoir City News and made its initial appearance yesterday. The proprietor, Jno. D. Eldridge, is a former resident of Harriman and received his newspaper training in local offices. Associated with Mr. Eldridge in the publication of the paper is John D. Chandler, of this city, also a mute.

Much dissatisfaction is reported in the ranks of the First Kentucky regiment on account of the election of Col. Biscoe Hindman to be Colonel of that body. They wanted Col. Jno. B. Castleman, charge fraud and talk of asking for honorable discharge from the service.

Geo. B. Warner, who numbered Paul L. Johnson among his adherents to be hanged, tried and convicted of lunacy, had sentence commuted to life imprisonment by Gov. Beckham, is now in the Western Kentucky Asylum for the Insane at Hopkinsville.

A Frankfort dispatch says: "The last of the registered bonds of issue of 1885 with accrued interest of \$250 were paid by the Auditor today. There were ten bonds of \$1,000 each. This leaves the total State debt \$20,000 of coupon bonds. There is \$400,000 balance in the treasury."

Prof. Barkdale Hamlett, of Evansville, Ind., has been elected Superintendent of city schools for Hopkinsville, vice Prof. J. R. Taylor, resigned. Miss Lula Earle is given a place in the city schools.

Felix Feltner, of Leslie county, the first of the men to be tried at Winchester, on the contempt charges, growing out of the alleged spiritizing of the witnesses in the Marcus-Harris damage suit last January, was sentenced to two years at hard labor in the county jail and assessed a fine of \$3,000 by the jury and unless Feltner is pardoned by the Governor he will be compelled to pay the fine and serve sentence as a verdict in a contempt case is rarely ever reversed by the higher court.

The new Illinois Central bridge over the Tennessee river was ready for trains Sunday. The bridge has been under construction eighteen months and cost over \$1,000,000. The old bridge will be torn down.

ST. LOUISANS HIT NEW YORK.

A Syndicate Purchases the Most Valuable Corridor in the City At a Record Price.

New York, June 7.—Establishing a new high record per square foot, for New York city real estate—more than \$58—the property at the southeast corner of Wall street and Broadway, opposite the Stock exchange, was made available to the public yesterday. It was made available to the public yesterday after taking on coal and provisions sufficient to take them to the nearest port. That up to this time only enough coal and supplies to furnish for a week had been taken from the building, with practically no coal or provisions. Gov. Wright insisted that the 24-hour limit must be strictly enforced, that necessary supplies and coal must be taken on with that time, these instructions being consistent with those of June 5, stating that as the Russian admiral's orders were to be carried out, from damage due to battle that the American policy was to restrict all operations of bellicose agents at neutral ports. In other words, that time should not be given for repair of damages suffered in battle.

ST. LOUISANS HIT NEW YORK.

Trial of Mrs. Aggie Myers, at Liberty, Mo., for Killing Her Husband, Will Proceed.

Kansas City, Mo., June 7.—The selection of jurors to try Mrs. Aggie Myers, charged with the murder of her husband, Charles Myers, occurred early this morning at the court at Liberty, Mo., Tuesday. When the court adjourned the panel of 40 jurors was complete. Many men summoned for jury service were excused upon the ground that they would not vote to inflict capital punishment on a woman, although she be proven guilty of murder in the first degree.
